

Classification of living organisms

Work like a scientist!

Part 1 – Observe each animal below and complete the table with your findings.

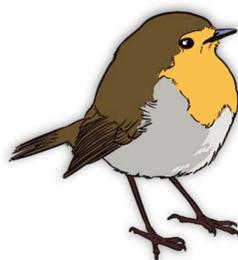

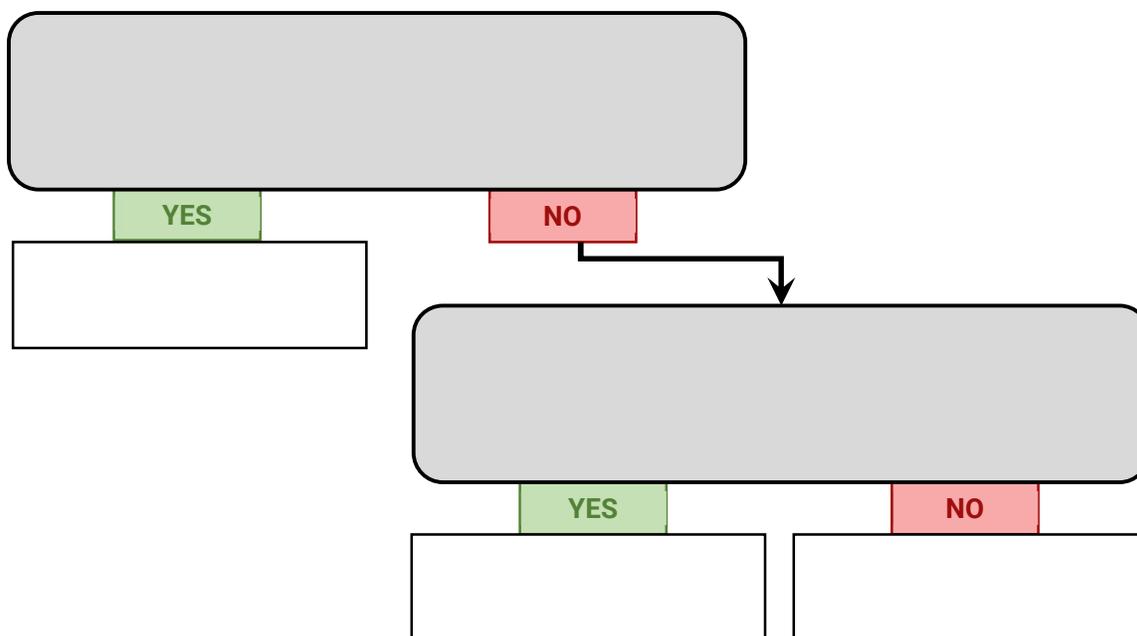

Tick the box if the animal has the indicated feature. The first four rows have already been filled in as examples.

	Robin	Squirrel	Dog (Rottweiler)
			
Can fly	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Can climb trees	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Lay eggs	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Have live babies	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Feathers	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hair	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Beak	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Snout	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pointy ears	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hanging ears	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Part 2 – Create a classification key based on your observations.

- 1) Think about 2 questions based on your previous findings to classify these animals. Write them in the grey boxes.
- 2) Write the name of each animal in the corresponding white box.

Robin

Squirrel

Dog (Rottweiler)
